August/September 2018 BOD Report

Presently the Montana CITES suit is the only one that's still being litigated. The FWS has completed the Environmental Assessment and found there is no need to change the current tagging program. This of course is disputed by the plaintiffs and is the crux of the lawsuit. Oral arguments have been set for October 23, 2018 in Missoula Montana. NTA attorney Gary Leistico will be representing the NTA.

The 2018 Southeast Regional, hosted by the Alabama Trappers and Predator Callers Association is fast approaching. Oct 5th & 6th in Rainsville Alabama. Thanks to the ATPCA for again hosting the South East.
